

Ai Squared Corporate Summary

Nestled in the picturesque village of Manchester, Vermont, in the heart of the Green Mountains, Ai Squared has grown from a one-man operation into a team dedicated to providing accessibility solutions for all low vision computer users. Ai Squared pioneered numerous advancements in screen magnification and screen reading software, including xFont, our exclusive patented technology which delivers crystal clear text at any magnification level, and NeoSpeech, synthesizers that provide human-quality speech.

Ai Squared is the worldwide leader in computer access solutions for the visually impaired, and has been for over 20 years. Our products are available in twenty languages and are sold in 45 countries through our network of over 350 dealers across the globe. Our company's products have helped over 100,000 individuals with early vision loss, computer vision syndrome, and visual impairments such as macular degeneration and glaucoma.

Ai Squared's screen magnification and screen reading products dramatically improve a computer's usability and friendliness for the low vision user, raising their level of productivity, satisfaction, and independence.

The family of Ai Squared products includes ZoomText, ZoomText USB, ZoomText Express, and the ZoomText Large-Print Keyboard. For more information on these products or on Ai Squared, please visit Ai Squared online at www.aisquared.com.
